PROFILE SUMMARY

Frontend Engineer with 3+ years delivering production-grade React and Next.js applications across fintech, e-commerce, and SaaS. Reduced page load times by 40–78%, achieved 95+ Lighthouse scores, and shipped scalable component architecture with strong Core Web Vitals across every product.

TECHNICAL SKILLS

Languages & Frameworks: TypeScript, JavaScript, React.js, Next.js, HTML, CSS, SASS, Tailwind CSS.

Tools & Platforms: Firebase, Postman, Git, GitHub, Vercel, Jira, Jest, TanStack Table, Redux Toolkit, Zustand.

Concepts: REST API Integration, Context API State management, React Query, Tanstack Query, Zustand, Payment API Integration (Paystack, Squad, Safe Haven), Agile/Scrum, CI/CD, Web Accessibility, Responsive UI

PROFESSIONAL EXPERIENCE

Frontend Engineer | Reepay (Remote)

Feb 2026 – Present

- Optimized application architecture using Next.js App Router and React Server Components (RSC), reducing client-side JavaScript bundle size by 20% and significantly improving First Contentful Paint (FCP).
- Engineered secure, end-to-end fintech payment workflows integrating Squad, SafeHaven, and VTPass webhook architectures; implemented robust client-side validation to ensure zero-fault wallet funding and real-time balance synchronization.
- Developed authentication system with protected/public route architecture and full profile management
- Implemented transaction history with dynamic filtering for improved financial visibility.

Stack: Next.js, TypeScript, Tailwind, Squad API, SafeHaven API, VTPass Webhook, State Management, Data Query

Frontend Engineer | I-Sentry Technologies (Remote)

Aug 2024 – Jan 2025

- Architected key frontend features (auth flow, checkout, shop, user pages) for an e-commerce platform, consumed APIs; identified, documented bugs via Jira and fixed them while improving page load times
- Developed a WCAG-compliant, accessible component library based on Figma design systems, boosting core Lighthouse performance metrics to 95+ across all high-traffic e-commerce funnels.
- Integrated unit testing with Jest across critical user flows and contributed to CI/CD pipelines via GitHub Actions, reducing regression rate on deployments.

Stack: Next.js, TypeScript, Tailwind, REST APIs, Redux, Zustand, React Query, ShadCN, Jest

Frontend Engineer, Fellow | Tech4Dev (Remote)

Aug 2023 – Sept 2024

- Developed a beauty marketplace connecting beauticians with clients, owning frontend from wireframe to MVP delivery.
- Led component architecture design for a beauty marketplace MVP, implementing performance optimizations that cut page load times by 40%, improved Core Web Vitals, and ensured WCAG-compliant, mobile-first UIs across all browsers.
- Collaborated in a cross-functional Agile team to deliver mobile-first, cross-browser compatible UIs.

Stack: React, JavaScript, Tailwind, SASS, React Router

Technical Operations Analyst | Technocrat Technologies | Spiro (Lagos)

Nov 2025 – Feb 2026

- Queried production SQL databases to debug and resolve complex financial data mismatches and webhook failures.
- Validated and structured high-volume operational datasets to ensure data integrity for backend ingestion.

Stack: MySQL, Relational Databases, Advanced Excel, DB Admin

SELECTED PROJECTS

- Goldies App:** E-commerce platform. Supports 3 role-based access (User, Admin, Super Admin), Paystack payments, product management. (Next.js, Redux, SASS, REST API)
- Luminflux App:** Netflix-inspired movie browser with user auth, filtered film discovery, and live movie API integration. Optimised for Core Web Vitals — LCP under 2.5s on a cold load. (Next.js, TypeScript, Tailwind)
- Finloop App:** Loan management dashboard with loan tracking, user management, and data table workflows. (Next.js, TypeScript, Tailwind, TanStack Table, React Hook Form, Yup)

EDUCATION & CERTIFICATIONS

Obafemi Awolowo University (OAU), Ile-Ife | B.Sc. Estate Management, 2019

Meta Frontend Development Certificate, Coursera, 2024

Bash Shell Scripting, Coursera, 2024

Responsive Web Design Certification, freeCodeCamp, 2023
